

BOAT WRAP SIGNAGE. KEEP YOUR CONTAINER CONTAMINATION FREE!

Choose from one of our four signage options, download your preferred sign, and take it to your local UPS® Print Shop to print and display at your collection site.

OUR FOUR SIGNAGE OPTIONS

MAKE YOUR BOAT WRAP RECYCLE READY

01 – Carefully Cut Shrink Wrap
While on the boat, cut shrink wrap horizontally above the perimeter band. Use a shrink wrap knife (preferred) or utility knife. Keep strapping separate—it's not recyclable. Avoid excessively dirty or wet wrap.

02 – Remove Non-Wrap Materials
Take off strapping, vents, zippers, buckles, and non-wrap materials. These are not recyclable; save or trash them. Removing accessories first can speed up the process. Shrink tape is recyclable and can stay on.

03 – Roll Up Wrap & Preparation
Start at the bow and work toward the stern. For large boats, slice into sections and roll on the ground. Fold into 4-5 foot widths, then roll like a sleeping bag. Tie with shrink wrap (not strapping or rope).

04 – Final Cleanup & Storage
Roll the clean wrap tightly and keep it dry. Store indoors or under cover until drop-off or pickup. Remove any remaining accessories or bands. Keep it free of dirt, water, and debris.

05 – Recycle Right for a Second Life
Place the rolled, recycle-ready wrap in the designated Wrap Recycle Right container at your nearest collection site.

Option 1

RECYCLE YOUR BOAT WRAP PROPERLY

NO

- × STRAPPING
- × VENTS
- × ZIPPERS
- × BUCKLES
- × NON-WRAP MATERIALS

YES

CLEAN, DRY SHINK WRAP FREE OF CONTAMINANTS
SHRINK TAPE IS RECYCLABLE AND DOES NOT HAVE TO BE REMOVED

Option 2

RECYCLE YOUR BOAT WRAP HERE

✓ ACCEPTED

- Blue boat wrap
- White boat wrap
- Clean, dry wrap only
- Thin, single-layer plastic film boat wrap
- Free of debris or heavy dirt

✗ NOT ACCEPTED

- Strapping, vents, zippers, buckles, & non-wrap materials
- Fabric-backed/Multi-layer covers
- Transshield™ brand wraps
- Any other materials that are not used for boat wrap

WHEN IN DOUBT
If it's not thin, single-layered plastic boat wrap - **do not** recycle here.

WHY THIS MATTERS
These materials are not recyclable in this program and can contaminate entire loads of boat wrap.

Option 3

ATTENTION BOAT WRAP RECYCLING ONLY

✓ Clean, dry shrink wrap free of contaminants.

✗ Strapping, vents, zippers, buckles, and non-wrap materials.
